

# Coming Home After The Puppies

When the pups are weaned and the breeder you care for is ready to go home, you will be contacted by the Canine Welfare-Neonatal staff to schedule a

## Post Whelp Release Appointment

This appointment will coincide with picking up the brood from campus, so please be prepared to allow 15-30 minutes. During the appointment, a staff member will review all aspects of caring for a post-whelp breeder at home, including any specific care or medical treatment pertaining to the individual brood you care for. You will also have the opportunity to have your questions answered.

Thank you and we hope that this process will be helpful and informative for you!
